Sir:

Please consider the remarks below in response to the final Office Action mailed December 21, 2005.

Claims 1 and 3-37 are all the claims pending in the application.

**I. REJECTION UNDER 35 U.S.C. § 103**

Claims 1, 3-5, 7-13 and 18-37 are rejected under 35 U.S.C. § 103(a) as being unpatentable over U.S. Patent No. 6,352,791 ("Fink") in view of JP 2001-247498 ("Mori");

Applicant respectfully traverses for the following reasons.

**A. *Lack of motivation to combine***

As stated in the Response filed November 21, 2005, one of ordinary skill in the art would not have been motivated to combine the references and employ the rings taught in Mori as the R groups of Fink's formula (I) based upon the teachings of the references.
